

ADDENDUM NO. 1

ATTACHMENT 2

reinforcing steel, steel dowels and drilling and bonding dowels in structures, hardware for steel plate barrier, miscellaneous metal, excavation, backfill, and disposing of surplus material and for furnishing, placing, removing and disposing of the temporary railing for closing the gap between existing barrier and the concrete barrier being constructed, as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer.

10-1.34 ASPHALT CONCRETE

Asphalt concrete shall be Type B and shall conform to the provisions in Section 39, "Asphalt Concrete," of the Standard Specifications and these special provisions.

Asphalt concrete shall be produced from commercial quality asphalt and aggregates. The spreading and compacting provisions in Section 39-6.02, "Spreading," and Section 39-6.03, "Compacting," of the Standard Specifications will not apply.

The asphalt concrete shall conform to the following requirements:

- A. Asphalt concrete shall be produced at a central mixing plant.
- B. Aggregate shall conform to the 12.5 mm, Maximum, coarse grading conforming to the provisions in Section 39-2.02, "Aggregate," of the Standard Specifications.
- C. The amount of asphalt binder to be mixed with the aggregate shall be between 4 percent and 7 percent by mass of the dry aggregate as determined by the Engineer. The fifth through eighth paragraphs in Section 39-3.03, "Proportioning," of the Standard Specifications shall not apply.
- D. Compaction shall be performed with a tandem roller weighing not less than 7.2 tonnes.

A paint binder will not be required.

MEASUREMENT AND PAYMENT

Measurement and payment for asphalt concrete shall conform to the provisions in Section 39-8.01, "Measurement," and Section 39-8.02, "Payment," of the Standard Specifications and these Special Provisions.

Full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in constructing asphalt concrete and asphalt concrete base, complete in place, as shown on the plans and as specified in the standard specifications and these special provisions, and as directed by the Engineer.
